## NOTICE TO CONTRIBUTORS

Papers relating to the heart and circulation should be sent (4 copies) to the Editor, British Heart Journal, 9 Fitzroy Square, London W1P 5AH, and be prepared according to the *Uniform requirements for manuscripts submitted to biomedical journals* (Vancouver agreement) (*BMJ* 1988;296:401-5). **Authors are asked to complete a copy of the checklist provided (1995;73: 105-6 (January issue)) when submitting their manuscripts for publication and to nominate three suitable reviewers.** The reference number given on the acknowledgement letter sent out by the editorial office should be quoted on all subsequent correspondence and telephone inquiries. A covering letter (wherever possible giving a fax number) must be signed by all authors stating that they have seen and approved the paper and that the work has not been, and will not be, published elsewhere. All authors will be required to transfer copyright of their articles to the journal before publication. (All material for possible publication (including Letters to the Editor) must be typed in *double spacing* with wide margins.) A 250 word structured abstract must be sent with most papers. If requested, authors shall produce the data upon which the manuscript is based for examination by the editor.

## ETHICAL STANDARDS

Authors are expected to comply with the code of ethics known as the Declaration of Helsinki. Where appropriate, manuscripts should include a statement that the research protocol has been approved by the locally appointed ethics committee and that the informed consent of the subjects has been obtained.

**AUTHORSHIP:** All authors must fulfil the criteria of the International Committee of Medical Journal Editors (Vancouver agreement) (see *BMJ* 1991;302:338-41).

**ABBREVIATIONS** should *not* be used in the text, except for mathematical calculations and units of measurement.

**REFERENCES** must be cited precisely according to the Vancouver agreement and be typed in *double spacing*. As a general rule, no more than three references should be cited for any one statement.

Authors are responsible for the accuracy of any references cited: these should be checked at source or with the listing in Index Medicus.

**UNITS OF MEASUREMENT:** All haematological and clinical chemistry measurements should be given as SI units. Blood pressures should be given in mm Hg.

**COPYRIGHT PERMISSION** to reproduce material published elsewhere must be obtained in writing and acknowledged in the manuscript.

**PROOFS** of articles accepted for publication will be sent for the author's approval. Proof corrections should be kept to a minimum.
